Class Descriptions

SPINNING: A certified instructor will guide you through a workout on a special stationary bike, burn 300-500 calories an hour!.

Endurance Spin: Train the body to be more efficient at metabolizing fat and to maintain a comfortable pace for extended periods, while having a great time! Heart rate monitor recommended.

Interval Spin: This high-energy class emphasizes speed, tempo, timing and rhythm. Movements include high RPM, pedaling on flats, accelerations, climbs and recovery stretches.

Strength Ride: The strength-training session involves steady, consistent pedaling with heavy resistance. Strength rides promote muscular and cardiovascular development that will enable you to be a strong, powerful climber.

YOGA

Ashtanga: Constant, flowing movements (vinyasas) define this particular class. Deep breathing (pranayama) and core muscle contraction (bandhas) help intensify the effects of the postures (asanas) by generating and maintaining internal heat in the body. This is an extremely energizing class that develops full body strength, flexibility, and encourages weight loss.

Body Balance: Starts with floor work using breathing and stretching movements to open the bodies joints ,while incorporating breathing technique to develop body awareness. The class progresses to some step work to develop muscular strength and balance. The blending of the two formats make a perfect whole body experience

Gentle Yoga: This class is focused on breathing, relaxation and stress relief based on Ayurveda principles.

Kripalu: A style of Hatha yoga that teaches the basic mechanics of yoga postures and introduces the concepts of breath work. It is a deeper inner directed form of yoga Breath and movement. A formatted yoga class that focuses on using breath and mental focus while gently applying yoga movement.

Vinyasa: Means to place in a special way. One posture builds upon the other or counterbalances the first move. Translated from Sanskrit which means connection

Hatha: A yoga program designed to bring harmony to the two main energies of the body: The energy of the moon and the energy of the sun. A perfect class to balance the mind and the intellect through breathing and movement

Buti Yoga: A class that is a soul blend of power **yoga**, cardio-intensive tribal dance, conditioning and deep abdominal toning”

STOTT PILATES™: Combination class that introduces matt and reformer principles. All levels welcome

Essential Mat: Learn the basics of an anatomically based approach to Joseph Pilates’ original exercise method. Incorporates modern exercise and rehabilitation science, eliminates contraindicated movements, and emphasizes neutral spinal alignment.

Intro to Reformer: Receive step-by-step instruction to each Intro exercise in the Reformer repertoire from our certified instructors. Learn why the Reformer is an important part of any fitness program in developing core strength and symmetry.

Essential Reformer: Designed for individuals with some STOTT PILATES™ Reformer experience. If you have prior experience with the STOTT PILATES™ Reformer machine and are looking for good solid workout, you won’t be disappointed!

Small Equipment Circuit: This class will utilize different pieces of STOTT PILATES™ equipment weekly to improve balance, strength, flexibility and coordination while using STOTT PILATES™ repertoire.

Ski Conditioning Using the jump board and props along with challenging floor exercises to get a great Pilates Core workout and help increase dynamic movement.

Intermediate Reformer: Experience needed in reformer work to do this class.
